

UK Modern Slavery Act Disclosure

This statement is made in accordance with Section 54(1) of the Modern Slavery Act 2015 (the "Act") and constitutes the Modern Slavery and Human Trafficking Statement

At MicroPort Orthopedics, we are continually driven to leverage our extensive experience in orthopedics and 20 years of superior clinical results to improve patient outcomes and drive provider satisfaction across the globe.

The mission of MicroPort Orthopedics is to become the trusted partner of healthcare professionals who share our belief that hip and knee replacements which may have been "good enough" in the past are, in fact, not good enough for the patient today. In concert with the surgeons who partner with us, we help patients get back on their feet quickly with more natural feeling mobility.

With a focus on innovation combined with our demonstrated capability to deliver the resources of an industry leader, MicroPort Orthopedics is helping patients worldwide achieve full function faster each and every day.

At MicroPort, we are committed to maintaining a safe work environment and managing our affairs ethically, lawfully, and to the highest standard of business conduct. As a resource to aid in this commitment, MicroPort has a Code of Business Conduct and has systems in place for employees to report suspected misconduct or other concerns. It includes telephone, website, and email forms of reporting.

MicroPort believes in the global protection of human rights in our own facilities and within our global supply chain. We expect our suppliers to share this commitment to human rights and equal opportunity in the workplace and require that they conduct their employment practices in full compliance with all applicable laws and regulations.

MicroPort has a certificate in place to raise awareness of the Modern Slavery Act directly to our suppliers and it is outlined in our Supplier Statement of Certification- Equal Employment Opportunity, Modern Slavery Act. This form will be reviewed at supplier audits and as a portion of supplier records. MicroPort continues to review and assess our risk management in our business and supply chain.
